

Multimedia Production Benchmarks

DOCUMENT: M&M-STD-03 | STUDIO STYLE GUIDE & QUALITY STANDARDS

1. VISUAL CAPTURE STANDARDS

Resolution: Native 4K UHD (3840 × 2160) at 60 FPS

Framing: Dynamic cursor smoothing with automated 1.25x focal zoom on interactive elements

UI Isolation: Zero desktop clutter; clean browser staging with dark-mode optimization

Subtitles: 100% synchronized animated typography with high-contrast background bounding

2. AUDIO MASTERING BENCHMARKS

Voiceover: Studio-grade condenser processing or ElevenLabs enterprise neural voice

Noise Floor: -60 dB (complete background noise and acoustic echo removal)

Master Level: Standardized to -14 LUFS (integrated loudness for digital web playback)

Cadence: Conversational direct-response pace (135–150 words per minute)

3. COMPANION ASSETS

Action Summaries: Every video module accompanied by a 1-page action summary checklist

Format: Formatted in vector PDF with interactive checkboxes for immediate mobile/desktop execution
